Who we are...

At Quality Cuttings Team, we believe our customers are our most valuable partners and we are committed to supporting their success. We are a premier provider of the highest quality unrooted cuttings, sourcing and shipping from domestic and off-shore stock, in close partnership with Floraplant S.A. de C.V. From perennials and annuals, to succulents, Quality Cuttings Team has more than 700 varieties in our premier Floraplant program. Our customer service in the wholesale horticulture trade is second to none, with reliable service and production quality. We're excited to help you bring new, colorful, exciting varieties to your customers!

Consistent, High Quality Unrooted Cuttings

Our stock nutrition is a key priority. Customer success starts with active cuttings that root well.

Convenience is key- One stop shop with a wide variety of genetics from over 40 breeders.

Quick shipping- orders received by Thursday ship Monday (US).

Reliable & Friendly Service- We are always here to help.

Floraplant SA de CV is a 100% Mexican company whose origins go back to the year 1985, being formally founded in 1991 by Mr. Hans Peter Doster and Mrs. Lourdes Gómez de Doster. The company has an area of 269 acres with 141 warehouses divided into two production centers, both in the State of Morelos.

Floraplant® is an icon of nurseries in Mexico with a large international presence, dedicated mainly to the production of ornamental plants, seedlings, rootless export cuttings, rooted cuttings for the national market, as well as the sale of inputs and seeds with the highest quality standards.

With more than 30 years of experience, **Floraplant®** is certified by the USDA for export, thus allowing it to operate under rigorous quality standards.

Floraplant® has more than 800 international varieties of different styles, colors and sizes. Due to the high demand for cuttings in the United States and Europe, Floraplant® has made exclusive sales contracts with renowned companies, such as our own Quality Cuttings Team (QCT).

QCT exclusively represents our unrooted cutting material throughout the United States and Canada.

Greenfuse Sweet Georgia™

The Greenfuse Sweet Georgia™ Series was selected for improved color and growth habit compared to existing series on the market. The Sweet Georgia™ series has a compact growing habit and is excellent for small containers since they will not overtake other plant material. The foliage provides a bold contrast in garden beds and containers, making it a popular choice for adding depth and drama.
